

Prepare a short presentation outlining the below questions.

1. What has been the impact of COVID (both during and post) on overall logistics industry and particularly for FedEx? Explain with specific examples and business cases.
2. What are the key business trends that would change and affect logistics industry in the long term (post COVID world)?
3. What are the upcoming technology trends that would change the logistics industry in the long term (post COVID world)?
4. In retrospect, could one predict the next global supply chain disruption and its impact? If yes, then what can be techniques or indicators? And how could this be tailored to FedEx perspective?

Guidelines: -

- Your presentation should not exceed 6 content slides (excluding the title slide).
- Share the references of any data sources used in your analysis on each viewpoint (Sidenotes).
